Subject: Valgrind suppression support added

I made a small patch to add valgrind suppression file to theide.
A sample file 'valgrind.supp' is provided, made from Novo's one and some additions by me.
After installation, file is located in ~/.upp/theide-svn/valgrind.supp (in case of svn build, otherwise in ide configuration folder).

By now file must be edited manually.... it would be interesting to add support for editing from inside ide.

files here, and all applied on svn build 276,

Ciao

Max
