I propose make some changes in Localization of Report package:

This patch show changes:

```
--- home/serg/upp/uppsrc/Report/ReportDlg.cpp
+++ tmp/ReportDlg-HEAD.2.cpp
@@ -226,10 +226,10 @@
  static FileSel fs;
  static bool b;
  if(!b) {
-  fs.Type(t_("PDF file"), "*.pdf");
+  fs.Type("PDF file", "*.pdf");
   fs.AllFilesType();
  }
- if(!fs.ExecuteSaveAs(t_("Output PDF file")))
+ if(!fs.ExecuteSaveAs("Output PDF file"))
   return;
  SaveFile(~fs, UPP::Pdf(*report));
 }
```

New version of files in attachments.
