Hello all!

Wrote a letter, and it does not appear. Possible crashing. Re-write.

1. The crosses on the tabs of the IDE when enabled on all tabs. So it is not convenient.Many times I misclicked and closed the tab, what do not want to close. We must take the example of Mozilla Firefox! There are crosses on inactive tabs are not visible at all. To do there is disable. Either make an option in "Setting->Editor" - for example "The behavior of crosses":
  1. crosses enabled on all tabs.
  2. crosses enabled on active tab, but on other tabs crosses disabled
  3. crosses enabled on active tab, but on other tabs crosses invisible

2. Hot key install Bookmarks (Shift+Ctrl+0 ... Shift+Ctrl+9) not work.

Rosa Linux Fresh R7 64 bit. U++ 9508 .

With best regards Navadvipa Chandra das.
