my application frequently attempts to connect to the database server.
see the pic:

and the code:

```
 while(1)
 {
  MSSQLSession mssql;
  for(;;) {
   String cs = "Driver={SQL Server};";
   cs << "Server=" << "127.0.0.1" << ';';
   String h = "sa";
   if(IsNull(h))
    cs << "Trusted_Connection=Yes;";
   else {
    cs << "UID=" << h << ';';
   // Cout() << "Password:";
    cs << "PWD=" << pass << ';';
   // Cout() << "Database (empty for default):";
    h = "";
    if(IsNull(h))
     cs << "Database=" << h << ';';
   }
   Cout() << "Connect mssql:" << cs << "\n";
   if(!mssql.Connect(cs))
    Cout() << "Connect failed: " << mssql.GetLastError() << '\n';
   else
    break;
  }

  #ifdef _DEBUG
   mssql.SetTrace();
  #endif

  //do some work
  Sleep(1000);

  mssql.Close();
 }
```
