please, how to peacefully append some data to file, regarding txt or bins, thanx....

to admins: maybee one little forum(section) with stupid questions like this could come handy, because I don't get the education of U++ and write the whole industrial applications at a time(now)

Subject: Re: appending to an existing file [SOLVED] :)

FileOut

replaced by

FileAppend

there are days, when you are, high, there are days, when you are low, there are sometimes no days...

That's why this forum exists... - to be useful for all kind of questions. And it's categorised by areas of use. I think this way it's easier to decide where to post and where to look for the info.
If we had categories by stupidity, then, I reckon, it would be much more difficult for people do decide how stupid they or their questions are...
