Pls,

How to set a GridCtrl header font size?

mygrid.AddColumn("my grid col").SetFont(Arial().Height(8));

getter to retrieve a GridCtrl header and set its font?

tks.

Unfortunately there is now easy way to do that now. What you can do is to provide your own display class for grid and override PaintFixed method. But I'll try to add SetHeaderFont soon.

kropniczki wrote on Sun, 05 June 2011 16:36Pls,

How to set a GridCtrl header font size?

mygrid.AddColumn("my grid col").SetFont(Arial().Height(8));

I've added SetHeaderFont(). Try this code:

mygrid.AddColumn("my grid col").SetHeaderFont(Arial(25));
mygrid.SetRowHeight(0, 40);

I'll add respecing Height() method leater.
