XML now can be read from and written to streams...

```
XmlParser::XmlParser(Stream& in);

XmlNode ParseXML(Stream& in, dword style =
XML_IGNORE_DECLS|XML_IGNORE_PIS|XML_IGNORE_COMMENTS);
XmlNode ParseXMLFile(const char *path, dword style =
XML_IGNORE_DECLS|XML_IGNORE_PIS|XML_IGNORE_COMMENTS);

XmlNode ParseXML(Stream& in, ParseXmlFilter& filter, dword style =
XML_IGNORE_DECLS|XML_IGNORE_PIS|XML_IGNORE_COMMENTS);
XmlNode ParseXMLFile(const char *path, ParseXmlFilter& filter, dword style =
XML_IGNORE_DECLS|XML_IGNORE_PIS|XML_IGNORE_COMMENTS);

void    AsXML(Stream& out, const XmlNode& n, dword style =
XML_HEADER|XML_DOCTYPE|XML_PRETTY);
bool    AsXMLFile(const char *path, const XmlNode& n, dword style =
XML_HEADER|XML_DOCTYPE|XML_PRETTY);
```
