Simple dialog:

```
struct dlgOptionsGroupList : TopWindow
{
 GridCtrl m_grid;

 dlgOptionsGroupList()
 {
  Title( "Select Groups user belongs" );
  SetRect( 0, 0, HorzLayoutZoom(330), VertLayoutZoom(285) );

  Add( m_grid.SizePos() );

  m_grid.AddHiddenColumn( "ID" );
  m_grid.AddColumn("Inc").Option().Fixed(50);
  m_grid.AddColumn("Group name").Fixed(200);
  m_grid.AddColumn("Group description").Fixed(400);

  m_grid.Add( 1, 1, "Group1", "Descript1" );
  m_grid.Add( 2, 1, "Group2", "Descript2" );
  m_grid.Add( 3, 1, "Group3", "Descript3" );
  m_grid.Add( 4, 1, "Group4", "Descript4" );
  m_grid.Add( 5, 1, "Group5", "Descript5" );
  m_grid.Add( 6, 1, "Group6", "Descript6" );
  m_grid.Add( 7, 1, "Group7", "Descript7" );

 }
};

GUI_APP_MAIN
{
 dlgOptionsGroupList dlg;
 dlg.Run(true);
}
```

there is no ScrollBars, what am i doing wrong ?

Cheers,
Sasa

m_grid.Absolute()

Btw. Instead Fixed you can use FixedAuto().

Thanks, that worked.

Cheers,
Sasa
