Fixed:

- Some hydra fixes..
- version.h includes correct version

PS: It's getting harder and harder to write changelogs... Mirek, please add something you know that I don't know

Yes, I am sorry. You got me lazy by picking changelogs from forum topics

Ari, perhaps we should have "changelog" forum? Or keep mailing list for that?

Mirek

You mean to add one more here, in this category? I had an idea to make one sticky topic in wishlist... what do you think?

I do not know, I think it should be separate forum somewhere (each topic - single new feature entry, with possible discussion).

Certainly not bugs database, as it will present new features as well.

Mirek

It's seems that we have already moved to this forum, so it's better to forget about sf mailing lists..

Changlog forum is a good idea - not all chages are fixes of bugs (that's why bugs database isn't enough)
