View Forum Message <> Reply to Message

Added:
- New sections in GUI turorial
- Wrappers for plugin/zlib: ZCompress(..), ZDecompres(..)
- Columnlist: Insert/Remove methods

Modified:
- Soruces: removed TCore, TCtrlLib and TDraw
- Layout designed: MaxChars at place of MaxLen
- RichObject: change in interface:
  String RichObjectType::GetTypeName(const Value& v) const;

Fixed:
- CodeEditor: repainting bug (flickering in Linux)
- Linux crashing when reopening top-level Ctrls
- DayName(..): wrong days order
- TheIde: crash when opening package organizer on empty package
