Is it possible to do an "INSERT OR REPLACE INTO" query using U++?

Hi rxantos,

rxantos wrote on Thu, 20 April 2017 14:44Is it possible to do an "INSERT OR REPLACE INTO" query using U++?

That is sqlite syntax, right? Quick and dirty solution is to add the "or replace" part into the query:

```
SqlStatement OrReplace(const SqlInsert& insert) {
 String s = SqlStatement(insert).Get(SQLITE3);
 ASSERT(s.StartsWith("insert "));
 s = "insert or replace " + s.Mid(7);
 return SqlStatement(s);
}
```

The same could be of course done for any other dialect as well, as long as you respect the supported SQL syntax.

Best regards,
Honza
