Hi,

Thanks for the tip but it didn't help me. I commented the line and it had no effect.

Radek
Hi,
Interesting, so your problem is really different than what I experienced. But since I can't/don't know how to reproduce it, it'll be kind of difficult to help...

It might help a lot if we narrow down the range of versions where this problem appeared. Could you try to test few other versions? The best ones to start with are probably 2938, 2941, 2972 and maybe 2955, which brought changes in CtrlCore and ide big enough to cause this.
