Navadvipa Chandra das wrote on Thu, 18 February 2016 09:20Hello all!

```
Font fnt;  
fnt.FaceName( "Gaura Times" );  
deSanskrit.SetFont( fnt );
```

deSanskrit - DocEdit.

White letters on a white background. Nothing can be seen. How to set font color?

With best regards Navadvipa Chandra das.
DocEdit is inherited from TextCtrl.
TextCtrl has method SetColor.

Hope this helps.
