teste

- <prj-aux>
- <ide-aux>
- <temp-aux>
- <meta>

main.cpp

```
#include <iostream>

int main()
{
    char dummy;
    std::cerr << "Hello, platform! " << std::endl;
    std::cin >> dummy;

    return 0;
}
```

main.cpp

```
----- teste ( MAIN GCC DEBUG DEBUG_FULL WIN32 )
main.cpp

There were errors. (0:00.10)
```
