Zbych wrote on Sun, 05 April 2020 11:12 Novo wrote on Sun, 05 April 2020 00:49 This does affect Mac and Linux apps.

What is technical reason of this change?

To be honest I pissed off by changes like this. I have many embedded apps that keep their settings in .upp directory and the last thing I need is to loose their settings, because default ConfigFile() has changed.

It was suggested right in this thread by Posix gurus. I am just trying to deliver...
