forlano wrote on Sat, 03 March 2007 09:09Hello,

is there a way, without to change the library, to set in the UWord package the unit to "cm" and Reveal codes to transparent?

Luigi

Good point. I had to change the library:

RichEdit.h 606:

```
RichEdit& ShowCodes(Color c)           { showcodes = c; Refresh(); return *this; }
RichEdit& Unit(int u)                  { unit = u; Refresh(); return *this; }
RichEdit& SpellCheck(bool b)          { spellcheck = b; Refresh(); return *this; }
RichEdit& SetZoom(int z)               { zoom = z; Refresh(); return *this; }
```
