(look what I'm doing on new year's day) happy new year all

upp v 11551
debian

In ChGtk.h line 148: Image GtkThemelcon(const char *name, bool large);

In FileSel.cpp line 86: Image GtkThemelcon(const char *name, bool large);

Debugging my code leads to FileSel.cpp line 88: GnomeImage(..)
which calls the above undefined function and then crashes
