Hello,

in version 711-dev2 I use the Callback-function "WhenEditRow" to react the Edit-Button of Grid-Ctrl.
Since version 712-dev1 this function is removed and I can find no other function to respond to.

Thanks in advance
Alex

Since version 712-dev1 this function is removed and I can find no other function to respond to.

I'm sorry for that. Plese use WhenStartEdit instead.

Thanks for the hint,
and many thanks for that widget

Alex

BTW: Can I send the german translation of "GridCtrl.t" to you, to be inserted.
I have lost my translation at the last update and now I must do it again anyway
