Hi,

Empty GridCtrl crashes after changing column width, if the cursor is moved below the column header.

Test code:

```
#include <CtrlLib/CtrlLib.h>
```

```
#include <GridCtrl/GridCtrl.h>
```

```
using namespace Upp;
```

```
struct App : TopWindow
```

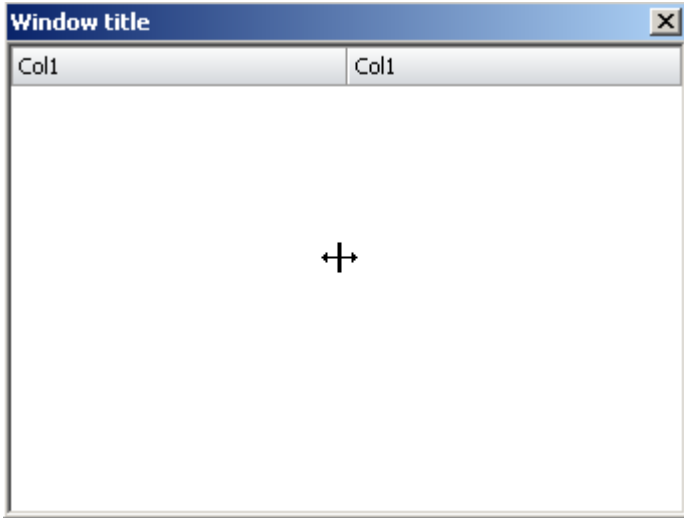

```
{  
    GridCtrl grid;  
    App(){  
        Add(grid.SizePos());  
        grid.AddColumn("Name");  
        grid.AddColumn("Surname");  
        grid.Clear();  
    }  
};
```

```
GUI_APP_MAIN
```

```
{  
    App().Run();  
}
```
