Trying to recompile on Ubuntu 10.10 and compile deb_lenny and no problem. I'm looking for it and nothing I have not helped. I installed the TheIde <https://launchpad.net/~dolik-rce/+archive/upp>

----- Nemesis (GUI MT MAIN GCC DEBUG SHARED DEBUG_FULL BLITZ LINUX POSIX) (15 / 15)
main.cpp
plugin/png: 3 file(s) built in (0:00.35), 118 msec / file, duration = 1042 msec, parallelization 100%
Core: 48 file(s) built in (0:02.61), 54 msec / file, duration = 6356 msec, parallelization 94%
Nemesis: 1 file(s) built in (0:07.00), 7005 msec / file, duration = 8593 msec, parallelization 20%
Linking...
/usr/bin/ld: cannot find -lwsck32
collect2: ld returned 1 exit status

There were errors. (0:22.07)

Hi arkady_c!

arkady_c wrote on Fri, 29 April 2011 09:53 Linking...

/usr/bin/ld: cannot find -lwsck32
collect2: ld returned 1 exit status

Library wsck32 is windows-only, so it is of course not present on your Ubuntu. I believe you are using it in your package's code (since I couldn't find it anywhere in U++), so you will have to rewrite the code to support linux as well (either using some multiplatform library, or using `#ifndef PLATFORM_WIN32`).

If you tell us what are you using the library for, someone might be able to advise you on how to make it work on both win and linux...

Best regards,
Honza

I did not work on the project two months. Compiled on Debian Lenny, and we made it work,

maybe something changed .. win7 : Thanks a lot.
