
Subject: Bug: Searching
finds the end of the line instead of
in text

I can't search for \n in my source code, because then it find the end of the line instead of occurrences of \n in the text.

The lde version 6868, windows xp

Hi Alboni,

Try searching for '\\n' It is very common in any application supporting escape sequences to require to escape the '\' character by another backslash...

Best regards,

Honza
