Quote:There appears to be an issue with GridCtrl related to child ctrls the selected row and focus in general.

Thanks for the test case!. Bug is hopefully fixed (I hope it wont break something else - grid is quite complicated). Before I put here the new GridCtrl (I'm almost done with NoEditable) comment `IsNewCol()` in `Go0(...)` in two places.

```
case GO_LEFT:
{
if(!SetCursor0(curpos.x < 0 ? firstVisCol : curpos.x - 1,
    curpos.y < 0 ? firstVisRow : curpos.y,
    0, 0, -1, 0, ctrlmode)/*.IsNewCol()*/)
return false;
break;
}
case GO_RIGHT:
{
if(!SetCursor0(curpos.x < 0 ? firstVisCol : curpos.x + 1,
    curpos.y < 0 ? firstVisRow : curpos.y,
    0, 0, 1, 0, ctrlmode)/*.IsNewCol()*/)
return false;
break;
}
```
