Would someone be so kind as to point me to any reference material on the subject?

Look at the GUI tutorial (but it seems strange to me you've missed it):
[http://www.ultimatepp.org/srcdoc\\$CtrlLib\\$Tutorial\\$en-us.html](http://www.ultimatepp.org/srcdoc$CtrlLib$Tutorial$en-us.html)

chapter 21. Creating and using custom widgets
but read the previous, too

kind of layout or draw function?

You could look at this thread
