gerryw wrote on Thu, 21 June 2007 02:53 Thanks Mirek!

You mentioned that there are some folks working on making the U++ lib build standalone with VC. Is this going to be officially supported in future releases?

When it is working, yes. OTOH, it is not the focus of core team now..

In the process, the real trouble is that MSVC build process is insufficient... (.icpp issue).

Quote:

Also, does this limitation exist for Linux as well?

AFAIK, there is no MSVC in Linux
