I still get errors pertaining to the assembler code... but I can work around that.

Some other, more interesting errors:

GridCtrl.h:926: error: 'PasteClip' has not been declared

GridCtrl.cpp:2031: error: 'ChildFrameMouseEvent' is not a member of 'Upp::Ctrl'

GridCtrl.cpp:2031: error: return-statement with a value, in function returning 'void'

GridCtrl.cpp:2034: error: 'PasteClip' has not been declared

Does this compile cleanly for you?
