Subject: Re: Project files for MS Visual Studio
Posted by dskips on Sun, 01 Jul 2007 00:49:29 GMT

Novo provided a VC8 solution file and 29 project files. Each project is a part of the source the projects are Core, Crypto, CtrlCore, CtrlLib, Draw etc...

Ok, I can do with SQL so i'll leave that out of the compilation but do I need geom_coords? The files are GeomCoords.h method.h coords.cpp ellipsiod.cpp method.cpp and util.cpp.
If I do need these how can I go about fixing the release?
