luzr wrote on Sun, 01 July 2007 00:31P.S.:

```
String FormatTS (int ms) { return Format("Render time %d:%02.2d.%03d", (ms/1000/60), (ms /  
1000) % 60, ms % 1000 );}
```

What's wrong with this ?
