Subject: How to detect application built using Ultimate++ Posted by johnevans77 on Wed, 18 Jul 2007 13:32:40 GMT

Dear all,

Just curious. Say, when someone send me an GUI application. How can i know if that application is built/developed using ultimate++.

Because, when i doing ldd (under Linux) or using dependency walker (under Windows), i can not see any indicator of ultimate++ usage.

Is it done on purpose?

Please advice,

JΕ
