luzr wrote on Fri, 20 July 2007 10:22 Why not, but I am sure I have built the current code with GCC4.1....

Then I suggest to also use __GNUC_MINOR__:

```
#ifdef PLATFORM_POSIX
#ifdef COMPILER_GCC
#if ((__GNUC__ > 3) && (__GNUC_MINOR__ > 1))
#include <ext/atomicity.h>
#else
#include <bits/atomicity.h>
#endif
#else
#include <bits/atomicity.h>
#endif
#endif
```
