Subject: Re: What improvements for Upp on Linux to comply with freedesktop?
Posted by fudadmin on Fri, 27 Jul 2007 23:23:21 GMT

Quote:The single .config path for applications is really nice. I would prefer to see the versioning modeled after KDE:

/home/${USERNAME}/.config/upp/${VERSION}/appname/*
Thanks, Ebo! I didn't dare alone to make an accent on this... Shell we vote? Who against?
