Subject: Re: Compression class?
Posted by lectus on Mon, 13 Aug 2007 18:56:09 GMT

Oh well... I just found ZGCompress() function, by browsing the packages.
That's the simple compression I needed!

I also found Base64 encode function, by browsing the packages.
It's not really hard to find, but please consider adding Web package to the manual. I still don't know how to use the socket class, as I posted on the other thread.

Thanks
