michael wrote on Sun, 26 August 2007 05:53: And another one:

In file included from C:/upp/out/CtrlLib/MINGW.Debug_full.Gui/\$blitz.cpp:207:

C:\upp\uppsrc\CtrlLib\Win32.cpp: In function `UINT_PTR Upp::sCenterHook(HWND __*, UINT, WPARAM, LPARAM)':

C:\upp\uppsrc\CtrlLib\Win32.cpp:81: error: `MONITOR_DEFAULTTONEAREST' undeclared (first use this function)

C:\upp\uppsrc\CtrlLib\Win32.cpp:81: error: (Each undeclared identifier is reported only once for each function it appears in.)

C:\upp\uppsrc\CtrlLib\Win32.cpp:81: error: `MonitorFromWindow' undeclared (first use this function)

I used the same code which was compiling well on dev1, now using dev2 on Vista it reports this error.

Oops, multidisplay support backfires...
