For the article and the homepage I have got a proposal - well worded (easy to remember) lists of top 5 (10 or...) features of U++:

1) as overall Platform (shell we say?);

...

...

2) as for core libraries (ntl, moveable);

...

...

3) as GUI toolkit;

...

...

4) as with extra libraries;

...

...

5) as IDE;

...

...
