Have you tested with MSC?

Mirek

Checked at home (I ran these tests two or three years back) ...

Windows MSVC v7.1
Windows cygwin gcc v3.4.4
Windows MinGW gcc v3.4.5
Linux GCC 3.4.0 (Slackware)
Solaris GCC v4.0.1

I'll also try to find testing results at work. I had a lot of them.

I'm really interested in discussion about troubles with DLLs on COFF and ELF platforms because this is a part of my job.
