I created the simplest gui with no widgets in Layout Designer and called it 'majn'. Unfortunately it doesn't compile. Can anybody help me??

```
*****main.cpp*****
```

```
#include <CtrlLib/CtrlLib.h>

using namespace Upp;
#define LAYOUTFILE <pierwsza/main.lay>
#include <CtrlCore/lay.h>

class majn : public Withmajn<TopWindow> {
public:

    typedef majn CLASSNAME;

    majn(){
        CtrlLayout(*this,"Pierwsza aplikacja w U++");
    }
};

GUI_APP_MAIN(){
    majn().Run();
}
```

```
*****
```

ERRORS:

```
returning a fun
ction
```

pierwsza: 1 file(s) built in (0:08.02), 8025 msec / file, duration = 8035 msec

There were errors. (0:08.93)
