Animated Hello example (full rebuild):

Code::Blocks svn4421 / MinGW 3.4.5 (Debug) : 1:18 / 241 warnings / 11.7MB.

Code::Blocks svn4421 / MinGW 3.4.5 (Release): 2:59 / 252 warnings / 3.3MB.

TheIDE 708dev2b / MinGW 3.4.2 (Debug): 1:11 / 0 warnings / 13.2MB.

TheIDE 708dev2b / MinGW 3.4.2 (Optimal): 2:39 / 1 warning / 1.6MB.

Update:

I've somewhat refixed zlib, so now no compile errors on MSVC rebuild.

Same Animated Hello full rebuild:

MSVC 8.0 (Debug) : 0:23 / 73 warnings / 3.9MB

MSVC 8.0 (Release) : MS Linker crashed. First time this happened to me

--> fatal error LNK1000: Internal error during IMAGE::BuildImage

Google found this: <http://connect.microsoft.com/VisualStudio/feedback/ViewFeedback.aspx?FeedbackID=100217>

Should install SP1...
