Subject: Stable Marriage Algorithm: interactive algorithm
Posted by forlano on Thu, 27 Sep 2007 19:57:20 GMT

Hello,

if you know the problem that it solves maybe this package could be interesting. I was not able to
find a C++ version around so I wrote one. Then I added a minimalist gui to provvide some
interaction.
You can see each step of the algorithm and how it works.

Luigi

PS: using the U++ containers everything was amazing easy.
