Subject: Re: Upp 710-dev1 released Posted by mirek on Sun, 14 Oct 2007 08:45:05 GMT View Forum Message <> Reply to Message

cbpporter wrote on Sat, 13 October 2007 14:23l press run (F5), application runs, I close application and I have a brand new tab with the content of Callback.h.

Unable to reproduce. Can you provide more details please?

Is it observed with some of examples? Debug mode? Using debugger?
