Subject: Downloadable Documentation
Posted by mikepol on Fri, 19 Oct 2007 02:24:44 GMT

Hi,

I often find myself programming without internet connection. It would be nice to have U++
Manuals on my HD in that case. Is there a version that I can download, chm, pdf, or just bundled
html? I could possibly download each individual tutorial, but that would be a pain. Any
suggestions?

Thanks.
