Hi,

I have program with NOAPPSQL flag set. When I try to compile it, I get compilation error:
C:\upp\uppsrc\Sql\Sql.cpp(497) : error C2065: 'SQL' : undeclared identifier

if I change SqlSession::~SqlSession() to:

```
SqlSession::~SqlSession()
{
#ifdef NOAPPSQL
    if(SQL.IsOpen() && &SQL.GetSession() == this) {
        SQL.Detach();
    }
#endif
}
```

everything compiles without errors.
