dmcgeoch wrote on Fri, 19 October 2007 19:49Where is that function defined? I am using
710-dev1 and the only version of the function is SetCursor(int n). Has there been an update to
gridctrl for that function?

Thanks,

Dave
Opps, I'm sorry. There is SetCursor0(Point p) which is not public. Sorry for mistake..
Anyway please add for now to gridctrl interface:
void SetCursor(Point p) { SetCursor0(p.x + fixed_cols, p.y + fixed_rows, false); }
I'll add it this in the next dev snapshot.
