Subject: Re: how to stop a thread that is waiting, e.g., listen()
Posted by bonami on Wed, 24 Oct 2007 02:20:02 GMT

yeah i heard of boost, just never used it, or even got to know it more.
speaking of my needs, i still had the tendancy to KILL the thread. so boost probably cannot fit in my project.

more considerations left later since it seems much time needed.
