I tried the latest U++ with sources (708b2) and it does the same thing. I tried rm -rf /usr/X11/ and re-install Leopards X11 package. No difference.

X Error: BadMatch (invalid parameter attributes), request: X_PolyFillRectangle, resource id: 0 = 0

14:21:39   DEACTIVATE 16SelectPackageDlg "Select main package (TheIDE 2007.1 20
07-04-12 11:09)"
14:21:39 X Error: BadMatch (invalid parameter attributes), resource id: 0 = 0
14:21:39 X Error: RenderBadPicture (invalid Picture parameter), resource id: 209
9488 = 200920

Well, we will start releasing "src" without the proper makefile soon... I think it is wiser to wait for that before trying to fix old version.
