luzr wrote on Fri, 02 November 2007 17:13Something like

```
Index<String> css;  
String h = EncodeHtml(ParseQTF(qtf), css, VectorMap<String, String>(), VectorMap<String,  
String>());  
DUMP(h);  
DUMP(AsCss(css));
```

Should get you started....

Mirek

First, thank you!

It looks **not** simple (for me), but probably the best if I do so, because c&p over MS-Word or Openoffice looks terrible.
