There is one: DHCtrl, unfortunately, only implemnted for Win32.

Maybe you could provide X11 implementation, that would be pretty good thing.

Ahhh, ok... maybe I can try, after I'll finish writing my control maybe I'll get enough skills to do it.  
BTW, it should not be too different of MainWindow implementation....

GLCtrl has some sort of it, but I've got the feeling that it's missing many things.

Ciao

Max
