In the light of day after a good night's sleep I've found the answer repeated below anyway:-

Quote:Yes, something is wrong. I'll take a closer look at it before new dev. In the meantime a workaround Smile
go Setup->Build methods->MinGW
in section PATH - executable directories add
C:\upp\mingw\libexec\gcc\mingw32\3.4.2
if you installed upp in c:\upp
It should work now.
