zsolt wrote on Fri, 23 November 2007 10:26: Is there a way to turn on BLITZ in this version?
I'm trying it with MSC8 and MINGW, but without success.

Hm

If BLITZ started to work for you, which I believe is the case (please report), then this is really quite funny bug

(I have simplified BLITZ heuristics to the one hour rule. Anyway, U++ installer does not change upsrc timestamps, so for the first hour no BLITZ for you
