---

i tried that :

```
Withwaiter<ArrayCtrl> *test = new Withwaiter<ArrayCtrl>();
test->lbl_callername.SetLabel("test");
test->lbl_country.SetLabel("test");
test->lbl_telnum.SetLabel("test");
```

```
array_waiters.Add("");
array_waiters.SetCtrl(0,0,test);
array_waiters.Layout();
```

with this layout :

```
LAYOUT(waiter, 196, 52)
ITEM(Label, lbl_telnum, LeftPosZ(4, 132).TopPosZ(4, 20))
ITEM(Label, lbl_callername, LeftPosZ(4, 132).TopPosZ(28, 20))
ITEM(Label, lbl_country, LeftPosZ(144, 48).TopPosZ(4, 44))
END_LAYOUT
```

But it don't appear correctly. Maybe it's a problem of height of the array cells. So i tried with SetLineCy(0,50); but the layout continue to not appear correctly.

If you could try with your version to tell me if you have a different result.
