gm1988 wrote on Wed, 28 November 2007 18:33I get the following errors when I try to compile my application. I used a predefined console application in Visual Studio 2005.

Hi,

it is not clear what you have done.
Have you tried to compile some reference application (package) coming with the Upp? This is useful to know if the compiler has been set in an appropriate manner.

If the previous test was positive perhaps in your application you missed the right includes.
