Oh, this is really easy to handle.

```
WithDropChoice<EditField> fldProduct;
```

```
Add(lblProduct.SetText("Produkt:").SetAlign(ALIGN_RIGHT).RightPos(270, 150).TopPos(top, 20));
```

```
Add(fldProduct.RightPos(10, 250).TopPos(top, 20));
```

```
fldProduct.SetText(product);
```

```
fldProduct.ClearList();
```

```
fldProduct.AddList("product1");
```

```
fldProduct.AddList("product2");
```

```
fldProduct.AddList("product3");
```

Sometimes it would be easier if there would be an example in every manual-entry.

Thanks

Michael
